FALL CHECKLIST for Florida Homeowners

Clean out gutters

Falling leaves can clog the gutters, making them less useful. If you have a lot of trees around your house, install gutter guards to prevent leaves from falling in the first place.

heating system.

Clean and replace filters in your

This is useful when avoiding carbon monoxide poisoning.

and windows.

Make sure the vapor barrier on insulation

Check your attic to make sure

insulation is installed properly.

is face down toward the living space. If it is installed incorrectly (with the vapor barrier facing up) then the insulation will trap moisture causing possible water problems. Cut slits in the vapor barrier to allow moisture to escape.

Any cracks will release heat, making it more expensive to warm your home.

Seal up cracks with caulk and weather stripping to save money on your electric bill.

Because there is less daylight in the fall and winter, your outside lights will be on

saving bulbs.

Replace outside bulbs with energy
